

MG2i Generators

**WACKER
NEUSON**
all it takes!

Economical generator for home, recreational and professional use.

This has been designed for low noise applications such as camping and caravanning. It is lightweight, powerful and incredibly reliable making it the ideal portable generator. This suitcase style generator with carefully developed inverter technology, a lightweight microprocessor replaces a traditional heavy alternator and helps maintain a smooth, consistent output power with no fluctuations.

- Reliable and powerful 4-stroke 79cc gasoline engine equipped with low oil sensor
- Inverter technology; Silent operation and clean electrical output
- Lightweight, portable, compact and easy to carry at 21kg
- Equipped with eco mode thus fuel efficient; This setting can achieve automatic regulation of engine revolution as per load condition
- Easy to use and operate control panel with indicator lights and DC 12V output for charging function

MG2i Technical specifications

Dimensions

L x W x H	499 × 285 × 455 mm
Net weight (without fuel)	21 kg

Operating data

Output performance (max.)	1.8 kW
Output performance (rated)	1.6 kW
Rated voltage single phase	230 V

Electrical system

Frequency	50 Hz
-----------	-------

Engine / Motor

Engine / Motor	Air-cooled, single cylinder, 4-cycle gasoline engine
Engine / Motor manufacturer	Loncin-LC148F
Displacement	79 cm ³
Operating performance	2.2 kW
RPM / speed	5,000 rpm
Tank capacity (fuel)	4 l
Fuel type	Unleaded Gasoline
Runtime	4 h

Please note: that product availability can vary from country to country. It is possible that information / products may not be available in your country. More detailed information on engine power can be found in the operator's manual; the stated power may vary due to specific operating conditions. Subject to alterations and errors excepted. Applicable also to illustrations.
